- Spanish (Basic)

PROFILE

I am a freelance front-end developer with strong skills in web development, project management, and team leadership. I have experience coordinating technology projects, managing task distribution, and facilitating communication between teams using tools like Jira, Microsoft Teams, Trello, ClickUp, and Asana. Technically, I specialize in building responsive, scalable websites and e-commerce solutions using TypeScript, HTML Handlebars, Sass, Bootstrap, PHP, and JavaScript (jQuery). I am proficient with CMS platforms such as WordPress, Vignette, Acquia, and especially Shopify, where I customize themes and integrate plugins. I focus on component-based development, code reusability, and performance optimization, with hands-on experience in plugins like WooCommerce, ACF, LearnPress, Swiper, and Flatpickr. I am dedicated to delivering high-quality, cross-browser compatible, and user-centered digital solutions.

WORK EXPERIENCE

Klein Media

2023 - PRESENT

Wordpress Developer

- I specialize in maintaining and improving WordPress websites, including implementing improvements and updates for WooCommerce and Shopify platforms.

Martin Luz

2022 - PRESENT

Front-End Developer

- Create and implement visual and interactive features on WordPress websites using HTML, CSS, JavaScript, and frameworks such as Bootstrap. Ensure that websites function seamlessly across devices and screen sizes.
- Improve loading speed, scalability, and overall site performance, including image compression, caching, and code minification.

Havas CX

2020 - 2021

IT Coordinator

- Coordinate developers team, task management with activities like distribution, prioritization, effort/deadline estimation for multiple projects using Jira and Microsoft Teams.
- Documentation of customer demands between Customer Service Team and Developers.

Front End Developer

- Developed responsive pages with TypeScript, HTML Handlebars, and Sass for WordPress, Vignette, and Acquia.
- Improved code reusability through componentization and optimized landing page performance, reducing page size by over 50%.
- Managed tasks with Jira, Teams, and Bitbucket.

Green Digital

2018 - 2019

Web Developer

- Developed and maintained many responsive web sites, landing pages and e-commerces using PHP, WordPress, HTML, CSS(Sass), javascript(jQuery). Task self-management using Trello. Git version control with Bitbucket.
