WORK EXPERIENCE

Havas CX - *may/2020 - Remote*

One of the most important digital marketing agencies in Brazil, with big clients and partners around the world.

- **IT Coordinator** - *feb/2021 - july/2021*

→ Coordinate developers team, task management with activities like distribution, prioritization, effort/deadline estimation for multiple projects using Jira and Microsoft Teams.

→ Candidate interviews for developers positions like Frontend, Backend and Intern.

→ Documentation of customer demands between Customer Service Team and Developers.

- **Front End Developer** - *may/2020 - jan/2021*

→ Developed and maintained many responsive pages using Typescript, HTML Handlebars and Sass under CMS like Wordpress, Vignette and Acquia. Task self-management using Jira and Microsoft Teams. Git version control with Bitbucket.

→ Componentization of common sections in page, to reuse code, decreasing duplications in 20+ pages.

→ Performance optimization on a Landing Page for a specific campaign, by compressing assets and removing unnecessary css code, decreasing page size by half (from 7kb to 3.6kb).

Plastika Twy, **Front End Developer** - *feb/2018 - apr/2019 - Remote*

An important digital marketing agency in Brazil, focused on local business and individual entrepreneurs.

→ Developed and maintained many responsive web sites, landing pages and e-commerces using PHP, WordPress, HTML, CSS(Sass), javascript(jQuery) and some WordPress plugins like WooCommerce, ACF and Learn Press. Task self-management using Trello. Git version control with Bitbucket.

→ Created multiple wordpress bootstrap themes, according to the commons products offered by the agency, improving project deadline time and developer workflow.

→ Maintained backup plan with git version control for wp-theme and db.sql.

NUVO, Front End Developer - *feb/2018 - apr/2019 - Remote*

Digital marketing agency, focused on local business and individual entrepreneurs.

⇢ Developed and maintained many responsive web sites, landing pages and e-commerces using PHP, WordPress, HTML, CSS(Sass), javascript(jQuery). Task self-management using Trello. Git version control with Gitlab.

Green Digital - *feb/2018 - mar/2019*

Digital marketing agency, focused on local business and individual entrepreneurs.

- **Web Developer** - *aug/2018 - mar/2019 - Remote*
- **Web Developer Intern** - *feb/2018 - aug/2018 - Curitiba, Brazil*

⇢ Developed and maintained many responsive web sites, landing pages and e-commerces using PHP, WordPress, HTML, CSS(Sass), javascript(jQuery). Task self-management using Trello. Git version control with Bitbucket.

SIDE PROJECTS

erenbrito.github.io
